I got that bling, you better get the hell away (Hey!)
My stupidity got worse, you're just fascinated (Woah)

I do not like to talk, you keep talking
We show off something cooler
Wearing cool clothes, cool necklaces, cool new shoes
I'm running, if you can follow, then come, but remember this one thing
Too special, we don't follow a manual
If you're one hundred percent ready, you can ask me any favor (Woah)

When the light goes out and it gets dark ahead
You know that fear
I had to fight more, I had to stand up
Do you see me now?

Just so cool
Just so cool
Just so cool
No matter what I do, cooler
Release your shouts everywhere
(Oh-ooh)
Cooler than anyone else
Just so cool

My appearance is so cool
Every step I take is so cool
Everything you do makes me laugh
Make me hit (Why, ayy, yeah)
Listen well (Why, ayy, yeah)
We on a level that you'll never reach

When the light goes out and it gets dark ahead
You know that fear
I had to fight more, I had to stand up
Do you see me now?

Just so cool (Ooh)
Just so cool
Just so cool
No matter what I do, cooler
Release your shouts everywhere
(Oh-ooh)
Cooler than anyone else
Just so cool

So push me even harder (Ooh)
Sometimes more than a war
It's so cruel and fierce
I know this place too well
Don't worry, I'm by your side
Maybe we already know the answer
Just trust me and watch me until the end
What? It's cool

Just so cool

Who else could do it like me?
You're not the one that would ever try to stop me (Stop me)
Who else could do it like me?
You're not the one that would ever try to stop me
Just so cool
