One Step Closer

I told myself
I cave when this dream just clouds all my way
The sun fades if I pull far away
I'm sinking

Can't you find a reason
From the 2nd floor of the house fifty six
In the change of season
Still skipping on through the leave filled streets
No, can't make you stay forever now
When you say the wrong things to people you love
I can't hold this all together now
A smile on my face while I scream to the sun

Help me find my heart
Without this
I'm just a broken man

I cave when this dream just clouds all my way
The sun fades if I pull far away
I'm sinking
In the silence I fade
But it's been

So long, I've learned to say
Years so full of laughter, won't be the same
So long, I've learned to say
Your so full of laughter, I'll be the same
Won't be the same

But you're too far away
I feel the warmth in this place
But you're too far away
Please hurry home to me
Please hurry home

Please hurry home
As the days go by I'm sinking
I'll sink into a dream kiss goodbye reality
I'll sink into a dream and kiss it goodbye

Kiss this goodbye
