

## Once in Silence

## One Without

Once in silence it is hard to bring it back  
The sound that leads me forward  
And makes living worth again

Our dreams will not go wasted  
Deep striving made me come this far  
Those who tried to crush us  
I don't have much to spare for you  
At all

Self-fulfillment shows  
The meaning of our lives  
Deep inside you lies  
A treasure ready to come forth  
Understanding is the answer to our cries  
Leave the thoughts  
That tries to eat you all behind

What lies beneath the wishes of our minds  
Can someone show me what it's all about  
Bring clearness and I'll grant you  
That the truth will lead us all the way  
All the way
