

## Boss

ONEFOUR

Like 50, I'm wanted by many men  
So I gotta be ready then continue with my guard  
I pray not I don't see the end  
They could be off claiming to be your friend  
Ain't no easy way it's even me or them

I've been dreaming of driving foreigners, get my rack straight  
Lose heat ain't important, I can't act fast  
New shit I keep recording, see I've been in the stu'  
Saying they won't be for me to send a

See, I've always been a boss with it  
Coming out of Mark's kitchen  
Yeah, we grew up 'round them criminals and mob figures  
Like they say, I'ma eat with who I foster with  
I need a bigger crib and faster whip

I'ma rise it up and let it off, no time for hesitating on the streets  
'Cause I'm still the most hated, 'cause I was doing late nights out  
Riding rough, always taking the risk  
Was on the block and that's facts, I ain't taking the piss  
They try your luck, we'll leave you looking for my bird's eye view  
Can't ever lose 'cause I was born with a war IQ  
Don't say you got me if you know deep down those words ain't true  
'Cause we're still running from the boys in blue

I've been dreaming of driving foreigners, get my rack straight  
Lose heat ain't important, I can't act fast  
New shit I keep recording, see I've been in the stu'  
Saying they won't be for me to send a

See, I've always been a boss with it

This ain't a threat, this a promise  
My shooters staying anonymous  
We could up the score today if we wanted  
Show me the play and I'm on it  
Nowadays, I'm on the stage for deposits  
But back then I was out there scaling narcotics

Listen, I came from the trenches  
And I ain't trying to glorify the trap  
But I'm trying to tell you there's more than flying packs  
I'm paying legals over a hundred K in order to have my back  
He just chilling in that court and fighting facts  
Before the war, it was fights in the park  
And rolling out dice in the dark  
To waiting on drops and praying that I see tomorrow

End of the day we see no change, and we are who we are  
It's only up to you to take charge

See, I've always been a boss with it  
Coming out of Mark's kitchen  
Yeah, we grew up 'round them criminals and mob figures  
Like they say, I'ma eat with who I foster with  
I need a bigger crib and faster whip, yeah

If he in the game, then show me how you wanna play  
I can turn 12 grams to an ounce of flake  
Treat the food like a school, it's all about the grace  
Couple hundred on the state, can't even pronounce the name  
You can say that we be trapped and that we live it  
So I pray that I'm forgiven for the times that I was drillin' now  
Come back 'til I see my brother in, F.L.E.'s gone again  
Free my brothers in the band, goin' in and out

You know how we spinnin' round, see them boys, you better duck  
Speaking up, we sit him down, no, we let him hit our buck  
Come to our side if you want drillers, it's just business  
And no hard feelings, 'cause

See, I've always been a boss with it  
Coming out of Mark's kitchen  
Yeah, we grew up 'round them criminals and mob figures  
Like they say, I'ma eat with who I foster with
