

# Freedom Of Speech

ONEFOUR

Gang  
Ay you know how we fucking rocking up in this bitch  
It's still fuck the opps  
Gang

Sleeping with the wolves swimming with the sharks  
Never went to school I was at the park  
Plotting with gang learning how to hunt  
Anybody who was fucking with the opps  
Talking to em' then they was getting chopped  
Working with em' then they was getting chopped  
Catch him over here  
Chase him at the shop  
Screaming for his mum aiming for his top

Judge ain't being sympathetic so I got to stay low  
But I could still give you a halo  
We play with gats like we playing with play-doh  
You play with us then you playing with fuego  
Bodies are dropping them pussies can stay there  
I get the drop then I'm making my way there  
Say we ain't with it you must be a spinner  
You already know what we did at the ...

They already know what we did at the village  
We pulled up like skrt da da, da, da, da  
Tell me if something is wrong with my vision  
Caught him with his mum and we did it at visits  
Set up and do it like Tony Soprano  
Hang with em' pussies you swim with the fishes  
Catch em' we chasing that family Tarago  
You better duck while you doing the dishes  
You better duck when you out with the Mrs  
'Cause I really don't give a fuck  
Catch him in public we're sizing him up  
Better keep cocky when I'm in the car  
If I'm on a glide and I got the mop  
Then I'm tryna slide I ain't tryna trot  
I'm rocking with gang and whatever come with it  
Cause that's how it is when you come from the block

You're a goose if you're not duckin'  
No tranny shit but the glock tuck in  
I told em' don't start nothing  
But now you know what fuck it  
We did them bladin's  
He was screaming out for God to save em'  
Ask me how we family with no blood  
I said we gang related  
... got headshot  
Please someone tell me how's he still alive  
Told my youngin next time dump that mag so that bitch really dies but  
Free Matty cuz he be moving weight like a exercise  
You'd think we stay on that side cause we spun the block so many times

Mix and mash their crew them Deccan chefs be coming two  
These drills no other can do

Free gang they soon be cutting us loose  
And I don't know why we chat on them they hide under the truth  
If they turn victim red liquid is to cover my shoes  
Initiate that drill and continue to keep it 110  
I'd rather make it a bundle instead but either way I get placed under arrest  
Intentions be changing the forecast thinking about how to drench and soak  
Incorrect with the weather report instead of the rain there's a chance of sm  
oke
