

## Leaving

ONEFOUR

Still with the same crew since a youngin'  
I ain't never switchin' up  
We don't think twice  
If we see the other side, then it's kickin' off  
None of these bitches were here from the start  
And now they wanna give a fuck  
And now these bitches wanna sit with us  
And now these bitches wanna chill with us  
And now these bitches wanna come 'round  
But fuck that, I'm leavin'  
She say she love me, better watch how you speakin'  
She mad that I only see her on the weekend  
But fuck that, I'm leavin'  
Said fuck that, I'm leavin'

See, I'm done with the long nights stressin'  
Tryin' to think if I left the scene with no trace  
Tryin' to do the most to chill with my siblings  
Just in case I catch a new case  
Knowing it was O.T., no sleep, but the phone rings  
And the coppers were gunning on my place  
Now I got fake ones out here tryin' to clone me  
With a pussy look in their face  
Money's changing everything around me  
But it's never changing me and my ways  
I could never switch up on my people  
Never been the type to switch up my lanes  
Got new ones out here tryin' to friend me  
But my trust is hard to be gained  
'Cause I don't know about their intentions  
Are they tryin' to steal some food off my plate?

Now everybody wanna give a fuck  
But I remember when they didn't  
Now everybody wants to run with us  
But where were they from the beginnin'? Ayy  
I remember sittin' on the bus  
I was never the type for the women  
Me and my brothers were drillin'  
Out on the field with the villains  
I was in prison for stupid decisions

Still with the same crew since a youngin'

We don't think twice  
If we see the other side, then it's kickin' off

She mad that I only see her on the weekend  
But fuck that, I'm leavin'  
Said fuck that, I'm leavin'

In the streets where I come from  
Either stay and bitch or punch on  
Had to burn bridges off with some fake cunts  
Now they all dirty like I done wrong  
They rap on the street but they been on the curb  
They talkin' 'bout drills but put in no work  
I couldn't rap till I earned my stripes, son  
Every trip that I took, lad, I jumped out first  
She just mad I don't trust her  
But she weren't there from the start  
So she ain't takin' my heart  
And I know she ain't gonna ride  
If I tell the other side, "Pick a path"  
'Cause all my hitters don't give a fuck  
Grab the lead, we gon' fill 'em up

Said fuck that, I'm leavin', yeah
