

Let's Ride

ONEFOUR

One for the money in this life we choose to live
One time for that bail, refuse they give
More time for the guys in pen, they take mine
Only write that I ride for them, ooh
Woah, woah, woah
Ayy

Bridgin' up with the risk they take
And for the gang, fuck it, they can get that pistol play
Yeah, we come up from the gutter, we ain't built to break
Ain't a killer but don't push me, I got bills to pay, ooh
Watch 'em all shake, come through wavin' that 44
Little pussy, this ain't no foreplay
We do it broad day, one crew, five seats
A 12-gauge with a hoodie I got from North Face
And I ain't tryin' to keep my nose clean
Little dogs want war, they can't get front row seats
Told my young G, keep that blade close
When the opps come, we ain't backin' down from no beef
I put that on the gang

One for the money in this life we choose to live
One time for that bail, refuse they give
More time for the guys in pen, they take mine
Only write that I ride for them
So let's ride, let's ride, let's ride, let's ride, yeah
So let's ride, let's ride, let's ride, let's ride

Fuck, fuck, fuck that, we ridin' tonight
Pour some liquor, tell them pussies someone's dyin' tonight
My man's tryin' to tell me there's no use in tryin' to fight
Look at the bigger picture, they took my brother
I said, "Fuck it, lad, I'm comin' with ya"
To me, it's more than beef
If they want drama, tell them call the chief
Fuck with us? We'll leave 'em all deceased
This is war we speakin'
Don't speak or speak of, I'm a product of pain
So we forever, fuck twelve, so let me grieve my loss
I'm backin' blood, whether he's right or wrong
And I'ma risk it for whatever it cost
And as I grip my cross, I pray to God that I don't miss my shots
So I'ma die screamin', "Fuck these"

One for the money in this life we choose to live
One time for that bail, refuse they give
More time for the guys in pen, they take mine
Only write that I ride for them
So let's ride, let's ride, let's ride, let's ride, yeah
So let's ride, let's ride, let's ride, let's ride
So let's ride, let's ride, let's ride, let's ride
