

## Distance

OneRepublic

I don't wanna only call your name when I'm brokenhearted, yeah  
I already know how much I've got to lose, oh, ooh-oh, oh  
I don't wanna have to crash and burn to be where we started, ye  
ah  
I don't wanna ever need a map to you, oh

I've run so far, been so high  
I'll chase the sun 'til our time

But I ain't gonna keep my distance from you  
Yeah, I already know what distance can do  
If I let you get away, bury me today  
Yeah, I ain't gonna keep my distance from you (Oh, yeah)

I'm so good at walls, good at lies, putting up my fences, oh, y  
eah  
I'm human as it gets when it comes to you, oh, yeah  
Looking in the mirror, seeing a man with a million faces, ooh,  
no  
But every single one, they know the truth

But I ain't gonna keep my distance from you  
Yeah, I already know what distance can do  
If I let you get away, bury me today  
Yeah, I ain't gonna keep my distance from you

I've run so far, been so high  
I'll chase the sun 'til our time

But I ain't gonna keep my distance from you  
Yeah, I already know what distance can do  
If I let you get away, bury me today  
Yeah, I ain't gonna keep my distance from you (Oh, yeah)
