

Forgot About You

OneRepublic

I forgot about you
I forgot about what you said
I forgot about what you did
I forgot about you
I forgot about you
I forgot about everything
And I ain't lookin' back your way
I forgot about you

I would run through fire for you even if it tore me up
Kill myself to satisfy you, but it was never good enough
Every time I needed you to catch me, you would always let me fall
So love me, hate me, burn me, blame me
I don't really care at all

I forgot about you
I forgot about what you said
I forgot about what you did
I forgot about you ('Bout you)
I forgot about you (Woo)
I forgot about everything
And I ain't lookin' back your way
I forgot about you (Yeah, yeah)
I forgot about you
I forgot about what you said
I forgot about what you did
I forgot about you ('Bout you)
I forgot about you (Woo)
I forgot about everything
And I ain't lookin' back your way
I forgot about you, 'bout you, 'bout you, 'bout you

I thought that I would die without you
But now I'm feeling more alive
I hope you're out there dancing somewhere
But that would be another lie
And I feel like maybe I should thank you if you ever try to call
So love me, hate me, burn me, blame me
I don't really care at all (I don't really care)

I forgot about you
I forgot about what you said
I forgot about what you did
I forgot about you ('Bout you)
I forgot about you (Woo)
I forgot about everything
And I ain't lookin' back your way
I forgot about you (Yeah, yeah)
I forgot about you
I forgot about what you said
I forgot about what you did
I forgot about you ('Bout you)
I forgot about you (Woo)
I forgot about everything
And I ain't lookin' back your way
I forgot about you, 'bout you, 'bout you, 'bout you

I finally see the things I used to never see before
Thought you were everything until I knew I needed more
I wished you well, I walked away, so what you waiting for?
What you waiting for?

I forgot about you
I forgot about what you said
I forgot about what you did
I forgot about you
I forgot about you (Woo)
I forgot about everything
And I ain't lookin' back your way
I forgot about you (You, you, you)
I forgot about you
I forgot about what you said
I forgot about what you did
I forgot about you ('Bout you)
I forgot about you (Woo)
I forgot about everything
And I ain't lookin' back your way
I forgot about you, 'bout you, 'bout you, 'bout you

(You)
Forgot about you, 'bout you, 'bout you
