

Serotonin

OneRepublic

I keep throwing up shade
Little sunlight in the pouring rain
I do, I do, I do

And time keeps ticking away
Feeling so far from yesterday
And you, and you, and you

And I'm just stopping through to say hello (Hello)
And I'm just stopping through to say hello
Then I'm gonna lay low

Try to let go
Sinking down slow
Serotonin high
Got me like whoa
Know a couple things
That I wish I didn't know (I, I)

Try to let go
Sinking down slow
Flyin' in my dreams
Got me feeling like whoa
Know a couple things
That I wish I didn't know (I, I)

Serotonin high

I keep tryin' to drown out
All of these thoughts
They get so loud
I do, I do, I do

And I just want to know how
Everything feels so different now
With you, with you, with you

And I'm just stopping through to say hello
Then I'm gonna lay low

Try to let go
Sinking down slow
Serotonin high
Got me like whoa
Know a couple things
That I wish I didn't know (I, I)

Try to let go
Sinking down slow
Flyin' in my dreams
Got me feeling like whoa
Know a couple things
That I wish I didn't know (I, I)

Serotonin high

And I'm just stopping through to say hello

Then I'm gonna lay low

Try to let go
Sinking down slow
Serotonin high
Got me like whoa
Know a couple things
That I wish I didn't know (I, I)

Try to let go
Sinking down slow
Flyin' in my dreams
Got me feeling like whoa
Know a couple things
That I wish I didn't know (I, I)

Serotonin high
I
