Stargazing  
Stargazing

I've been waiting for, waiting for a while now  
Set me on, set me on fire now  
Couple bumps on the wave, but we ride out  
Pushing on the pedal and just vibe now

Take in the view  
Dark side of the moon  
The world looks so blue  
I'ma leave it all behind if I have to

Stargazing (stargazing)  
Floating off the ground  
Lights fading (Lights fading)  
But I'm still glowing now

Dream chasing (dream chasing)  
Shooting straight through the clouds  
Stargazing (stargazing)  
This time I won't look down

Full speed 'cause I wanna know (Wanna know)  
Eyes closed if I make it out  
Top off, now we beaming up (Beaming up)  
So high that we can't get down

Take in the view  
Dark side of the moon  
The world looks so blue  
I'ma leave it all behind if I have to

Stargazing (Stargazing)  
Floating off the ground  
Lights fading  
But I'm still glowing now

Dream chasing  
Shooting straight through the clouds  
Stargazing (Stargazing)  
This time I won't look down

Stargazing  
This time I  
Stargazing  
This time I won't look down  
Stargazing  
Stargazing

Welcome home to the afterglow  
Welcome home to the afterglow

This time I won't look down
