

Live in the night  
After a long time goes by  
I think I know now  
That guitar covered in dust  
I'll trade it, yeah  
There's no refund, there's the dice thrown  
Shot in the dark  
I'm betting everything on you now

Even if no one else wants to see this dark night  
Even if it is still taking a long time  
I want to hear your voice, even though it's not sweet  
I'll sing for you as long as you're here forever  
So that my voice can touch the sky

The time my heart meets with your heart  
Ooh, ooh-ooh  
So that my voice can touch the sky

(Yah-ah-ah)  
Was up all night, eyes didn't close, drama (Yeah-ah)  
Hurry, spotlight, shine it, get it out, trauma  
Open your arms to me and be my lighthouse  
Freely, the most beautifully, the brand, be yours  
It's not bad (Bad, bad)  
Getting to you, mm-mm-mm-mm-mm (Mm-mm, mm-mm)  
Let's spread your logo worldwide, don't forgo (We gonna go)  
Play nonstop for all, let's go

Endless flowing time pushes me far away  
Sometimes, I feel afraid, keep hidin' away  
I want to hear your voice, even though you care less  
I'll sing for you as long as you're here forever  
So that my voice can touch the sky

The time my heart meets with your heart  
Ooh, ooh-ooh  
So that my voice can touch the sky

Even if the countless stars  
Strive out to shine out bright  
They are shining to the full  
Although I am under the countless stars  
So that I can be myself  
So that you find me always  
I'll never fade away  
I'll never fade away, oh

The time my heart meets with your heart  
Ooh, ooh-ooh  
So that my voice can touch the sky

Oh-oh-oh-oh
