

Regulus

ONEWE

The name of the star that I live on
Often, they call it the regulus
Even though it may be dark all day
I'm not lonely at all
In this place where I live and breathe
There's a flower that resembles you
It doesn't wither or fade away
It always stays by my side

This night, this moon and stunning day
You can't be described
Let's hold our hands together
And go live on ecstatic isle
So that it doesn't escape away, the tip of our fingers ends
The blue ocean, the sand weighing the size of our love again
My heart's made of you, extend
Tock-tock, after the rain goes, we have bloomed in full

The name of the star that I live on
Often, they call it the regulus
Even though it may be dark all day
I'm not lonely at all
In this place where I live and breathe
There's a flower that resembles you
It doesn't wither or fade away
It always stays by my side, oh

The moment the sound of your footsteps come across galaxy
The burning sunshine and moonlight are already waiting for you to come

This night, this moon and stunning day
You can't be described
Shall we take two petals off
And cherish them one by one?
Even if I can't remember 'cause I have faded away
So that you're the only one who knows
Under the horizon star, I will bury the secret
Tock-tock, so the flower of you can bloom again

The name of the star that I live on
Often, they call it the regulus
Even though it may be dark all day
I'm not lonely at all
In this place where I live and breathe
There's a flower that resembles you
It doesn't wither or fade away
It always stays by my side

I'm withering, but you don't be withering
Remember me even when I'm gone, yeah, just a little selfishly
This star is precious a living and breathing memory
Even if it's far away from the earth, mm

I'm hoping, can you stay the way you are?
Underneath the lights of the star shooting shining night
After the moon sets, until the dawn sky reveals you

Endless stars on the night sky gleam
They will shine facing towards the earth
The place I breathe called regulus
It'll shine on you
Out of the many that I've met
You're the only one I'll remember
You who is listening to this song now
I'll remember you, oh
