I haven't forgotten for even a minute or a second
I still tremble when I think about you
I still remember those shy days
When I worried if I should talk to you first

After a busy few months
We're finally face to face
Such great happiness has come to me
You complete me, you're every part of me

I'll cut up my day
Into 24 parts
And fill each part with you
As much as the memories grew today
More than yesterday
I feel like our world is getting larger

Wherever I look, you're there
So my days are always beautiful
I used to be expressionless but I'm smiling every day
You complete me, you're every part of me

I'll cut up my day
Into 24 parts
And fill each part with you
As much as the laughter grew today
More than yesterday
It feels like our sky has gotten higher

The world is filled with you
I'll be with you forever
I can't go back to the times you weren't there
But I promise you, I'll be by your side

I'll gather the 86,400 stars
And place them in my eyes
I want to tell you how my heart is pounding right now

All of our times have connected us
Can you hear it?
