Yeah yeah yeah yeah yeah
Ooh woah

Waited so much for this moment
You still dazzle like a star
I try to be calm as I smile, yeah
Actually, I'm really nervous

You don't know my heart
But actually, this moment is just a dream I have sometimes

Oh, if you dream, I'll be with you
Oh, with me, don't stop
If I dream, don't wake me up
Just ten more minutes

Look at me look at me, look here
I wanna tell you but I can't
Not even my footsteps go as my heart wishes
It won't listen

I don't even know
But even this is just a dream that I made

Oh, if you dream, I'll be with you
Oh, with me, don't stop
If I dream, don't wake me up
Just ten more minutes

Please appear every day in my dream
If you open your eyes
Don't forget
Remember us together

I think I'm sleeping well these days
In case I can see you
If I dream, don't wake me up
Just ten more minutes

Look at me look at me, look here
