

Afterglow

Onlap

I'll be there when you're down
When you're losing your ground
'Til the afterglow
The afterglow

1, 2, 3 Go!
Oh Ohhh

One more battle is fading away
You look so great when you gotta shine
One more part of you is gone now
As you keep smiling at the crowd

The pressure is your best enemy
The spotlights hide what they don't want to see
Sometimes it feels like you're under attack
You just can't break free

I'll be there when you're down
When you're losing your ground
'Til the afterglow
The afterglow

I'll be there when you fall
When you're losing it all
In the afterglow
In the afterglow

Wohoo!

It all started with the passion
It all sounded like a dream
Remember how you kept on laughing
Now you're trapped in your own skin

The anxiety is growing
As the lights begin to shine
What if this time you totally fail?
You want another truth
You want another truth!

I'll be there when you're down
When you're losing your ground
'Til the afterglow
The afterglow

I'll be there when you fall
When you're losing it all
In the afterglow
In the afterglow

Don't you ever forget
Who you really are
You're worth more than
Glory and fame, tonight

Have faith in me

Keep faith in you
Keep faith in you

I'll be there when you're down
When you're losing your ground
'Til the afterglow
The afterglow

I'll be there when you fall
When you're losing it all
In the afterglow
In the afterglow

1, 2, 3 Go!

I'll be there when you're down
When you're losing your ground
'Til the afterglow
The afterglow

I'll be there when you fall
When you're losing it all
In the afterglow
In the afterglow

Oh ohh!

Oh ohh!
Oh ohh!
