

Beyond Nevermind

Onlap

For all the things that were left unsaid (Left unsaid)
For all the times I found promises dead
I had nightmares along the way (Along the way)
I made prayers in vain
Never heard
Never heard
Never heard

So many fights for nothing at all (Nothing at all)
So many problems never solved
I saw people with fear in their eyes (Fear in their eyes)
Into a world falling apart
Falling apart, mmm
Falling apart

I'm awake
I'm alive
It made me who I am now
Nevermind
I survived
Time after time

Through the pain I feel
Through the hate in me
It goes on and on again
Enjoy the ride while you're alive
And scream nevermind

Oh oh oh oh
Oh oh oh oh
Enjoy the ride while you're alive (Alive, alive)
And scream nevermind

For all the things that were left unsaid (Left unsaid)
I made prayers in vain
Never heard
