

Burn

Onlap

Crawling again, question my brain
Where's the candlelight?
Losing my breath, losing myself
Dream's are out of sight

Stop struggling against my demons
Stop digging lies, my fiction
Let it burn, burn, burn

Burn the pain, burn the lies
Burn the fear inside myself
And burn it all again
It's the right time to
Escape this cage
I've been locked in for so long
It's not where I belong
Let it burn (Burn), burn (Burn)
Burn into the ground

Ready to fight, ready to go
That defines the world
Second chances are gifted
Just get one

Crawling again, question my brain
Where's the candlelight?
I catch my breath
And let it burn, burn, burn, burn

Burn the pain, burn the lies
Burn the fear inside myself
And burn it all again
It's the right time to
Escape this cage
I've been locked in for so long
It's not where I belong
Let it burn (Burn), burn (Burn)
Burn into the ground

Get out
Burn, burn
Burn, burn, burn
Burn, burn
Burn
Let it burn
I've gotta let it burn
We gotta let it burn
I've gotta let it burn

Burn the pain, burn the lies
Burn the fear inside myself
And burn it all again
It's the right time to
Escape this cage
I've been locked in for so long
It's not where I belong
Let it burn (Burn), burn (Burn)

Burn into the ground

Get out

Burn, burn

Burn, burn, burn

Burn, burn

Burn

I've gotta let it burn
