

Fight Like the Devil

Onlap

No matter who you are now
Our future is gone
Monsters we created

Are all around
We'll fight like the devil

No matter who you are now
Our future is gone
Monsters we created
Are all around
We'll fight like the devil

It's been a while
Now that all has changed (all has changed)
The world we use to know
Has gone away (Has gone away)

It's not like stories
It's not like playing games
No air you can breathe
No place you can be safe
Too late to run away

No matter who you are now
Our future is gone
Monsters we created
Are all around

We have to survive now
Sunshine is gone
What's left of the world
Lives under the ground

But through the cold and fear
We'll see the dawn
We'll fight like the devil

Holding our lives
Into the palms of our hands (Of our hands)
We don't give up
We keep on moving ahead (Moving ahead)
We're sons of darkness
The last human's standing
Chaos is all what's left
Chaos is what we deserve

Let's do something impossible

No matter who... You are now
Our future is gone
Monsters we created
Are all around

We have to survive now
Sunshine is gone
What's left of the world

Lives under the ground

But through the cold and fear
We'll see the dawn
We'll fight like the devil

No matter who you are now
Our future is gone
Monsters we created
Are all around

We have to survive now
Sunshine is gone
What's left of the world
Lives under the ground

No matter who you are now
Our future is gone
Monsters we created
Are all around

We have to survive now
Sunshine is gone
What's left of the world
Lives under the ground

But through the cold and fear
We'll see the dawn
We'll fight like the devil (Let's do something impossible)
We'll fight like the devil

(No matter who you are now our future is gone)
