

Forever

Onlap

Whoooah!
Whoooah!
There's a long road just behind you
Everything has gone so fast
Memories are all inside you
And you'll never make them back

I can feel
I can feel that you read
Through the words that did not make sense
You can feel
You can feel what I mean
Now that you're here

Just know
There's nothing to fear along the way
There's nothing I could say
Nothing I could say

But I say
Whoooah!
You can wipe the years you're hiding
I say
Whoooah!
You can kill the fear you're holding

There is one thing that is true
The only wall you can't get through
There is one thing that is true
You just cannot make it last forever
Forever!

Wonder why I can't feel relief
Without being blind or dumb
Find something to believe in
And never give up
I can feel I can feel that you read
Through the words that did not make sense

You can feel
You can feel what I mean
Now that you're here
There's nothing to fear along the way
There's nothing I could say
Nothing I could say

But I say
Whoooah!
You can wipe the years you're hiding
I say
Whoooah!
You can kill the fear you're holding

There is one thing that is true
The only wall you can't get through
There is one thing that is true
You just cannot make it last forever

Ever
Ever

I will never last forever
You just cannot live forever
Ever
Ever
Lets go!

Even I close my eyes
Even when I fall asleep
It's the same in the end
Time is running out
Even I close my eyes
Even I close my eyes

There's nothing to fear along the way
There's nothing I could say
Nothing I could say

But I say
Whoooah!
You can wipe the years you're hiding
I say
Whoooah!
You just cannot make it last
Forever
Forever

Whoooah!
You can wipe the years you're hiding
I say
Whoooah!
You can kill the fear you're holding
There is one thing that is true
The only wall you can't get through
There is one thing that is true
You just cannot make it last forever
