Freak Like Me

Onlap

I've always followed my own direction
No one can pull me out
I've always felt different from the others
I'm running away now (Running away from you)

Fears are fading
Wounds stop bleeding

'Cause I'm sick of standing up instead of going down
I'm sick of never being able to cross the line
I'm sick of pretending everything is fine
You got it, you got it
You're just a fucking freak like me

Burning inside but I am alive
I'm not the one that you used to know
I've always hated to act like the others
I found my way now (Running away from you)

Fears are fading
Wounds stop bleeding
Fears are fading
Fears are fading

'Cause I'm sick of standing up instead of going down
I'm sick of never being able to cross the line
I'm sick of pretending everything is fine
You got it, you got it
You're just a fucking freak like me

'Cause I'm sick of standing up instead of going down
I'm sick of never being able to cross the line
I'm sick of pretending everything is fine
You got it, you got it
You're just a fucking freak like me

Fucking freak like me
A fucking freak like me, yeah

Freak like me
Freak like me
