

## From Dust to Ashes

Onlap

Still don't know why I have to worry  
Still don't know why I'm in a hurry  
Why do we need to care about it so much  
Nothing to guide me  
Sick and tire to see you wasting your time  
Instead of living looking for signs  
You know that the time is running out  
You just have to find me

I've have nothing to believe in  
Try not to think about the end  
I am not afraid and I know we  
Rise from dust, fall in ashes  
I am not the one who needs some help  
Jump in the dark and never look back  
I am not afraid and I know we  
Rise from dust, fall in ashes

Still don't know why I should not be free  
Still don't know why it's so hard to see  
Why do we need to care about it so much  
Nothing to guide me  
Cannot stand to see you losing your mind  
I walked this way and nothing to find  
What you thought, what you did, it's over now  
You've to believe me

I've have nothing to believe in  
Try not to think about the end  
I am not afraid and I know we  
Rise from dust, fall in ashes  
I am not the one who needs some help  
Jump in the dark and never look back  
I am not afraid and I know we  
Rise from dust, fall in ashes

Think about the end

I am not of those who need some help  
Jump in the dark and never look back  
I am not afraid and I know we  
Rise from dust, fall in ashes

I've have nothing to believe in  
Try not to think about the end  
I am not afraid and I know we  
Rise from dust, fall in ashes  
I am not the one who needs some help  
Jump in the dark and never look back  
I am not afraid and I know we  
Rise from dust, fall in ashes

So never give up, no  
So never give up, no  
You've got so much to save  
Never give up, no  
So never give up, no

Never become a slave
