Lonely

Onlap

Forever
And ever
Don't leave me here forever

I've been dancin' with your ghost
Hell or heaven, no one knows
Are you out there?
Tell me that you're somewhere
Don't just turn away
I'm afraid this might be over
Overdose

Will I be lonely forever?
Is your silence just a deadly sound?
Does it get any better?
Cause I'm falling to my knees right now
Somebody save my, save my, save my soul
So I don't have to ever feel so
Lonely forever
I've been searching for your heartbeat
Don't leave me lonely

Forever
And ever
Don't leave me here forever

Sad or happy, I don't know
If you love me, let it show

Are you out there?
Tell me that you're somewhere
Please don't turn away
I'm afraid this might be over
Overdose

Will I be lonely forever?
Is your silence just a deadly sound?
Does it get any better?
Cause I'm falling to my knees right now
Somebody save my, save my, save my soul
So I don't have to ever feel so
Lonely forever
I've been searching for your heartbeat
Don't leave me lonely

Oh, oh
Don't leave me lonely
Don't leave me lonely
Oh, oh
Don't leave me lonely
Forever

Don't leave me lonely
Don't leave me lonely
Forever
And ever

Will I be lonely forever? (hear me out)
Is your silence just a deadly sound?
Does it get any better? (Hear me out)
Cause I'm falling to my knees right now
Somebody save my, save my, save my soul
So I don't have to ever feel so
Lonely forever
I've been searching for your heartbeat

Forever

Don't leave me lonely
Don't leave me lonely (forever)
Forever, and ever
Don't leave me lonely
Don't leave me lonely
