

# My Generation

Onlap

It all started on the block hip hop trendsetters  
The school of hard knocks in the attitude era, yeah  
I just wanted to be one of the best  
Holding the mic as I'm yelling out degeneration X

I will remember it  
(I will remember it)  
I'll never forget it

(My generation)

(You know)  
We've come a pretty long way  
(You know)  
There's so much I could say  
(You know)  
It's never really gone away  
(Ho ho ho hoo)  
(Ho ho ho hoo)

(You know)  
I feel it in my bones  
(You know)  
It's like a bright light through it all  
(You know)  
I'll never let it go

My generation

Back in the days  
When we were just kids  
We bought our first mic and guitar (ahah)

Legendary bands  
They're still out there now  
We started everything, so excited

Your generation's out here wishing for good  
My generation's on the front lines wishing they would  
Give it a rest don't test it you'll be severed for good  
Don't get ahead of me  
You'd never survive in our neck of the woods

I will remember it  
(I will remember it)  
I'll never forget it

You'd never survive in our neck of the woods  
(My generation)

(You know)  
We've come a pretty long way  
(You know)  
There's so much I could say  
(You know)  
It's never really gone away  
(Ho ho ho hoo)

(Ho ho ho hoo)

(You know)

I feel it in my bones

(You know)

It's like a bright light through it all

(You know)

I'll never let it go

My generation

(Ho ho hoo)

(Ho ho hoo)

(Ho ho ho ho ho ho)

I'll remember everything

Until the end of my life

And when I look back into the past

Here is what I see

Yeah, yeah

Hold up just a sec

Know that I'm coming to flex

This that midwest

Meal prep

Coming from one of the best

Watch me ingest

Insects mumbling under their breath

Get chin checked mid set

Crumbling under the stress

Told you I was an oddity rocking without apology

We regain control ain't no stoppin' the prophecy

The D and Onlap mixing it up properly

Bonding like Pierce Brosnan, Daniel and Sean Connery

I will remember it

(I will remember it)

I'll never forget it

(My generation)

(You know)

We've come a pretty long way

(You know)

There's so much I could say

(You know)

It's never really gone away

My generation

(You know)

I feel it in my bones

(You know)

It's like a bright light through it all

(You know)

I'll never let it go

My generation

Yeah

My generation

My generation
