

Never Ending Winter

Onlap

Never ending winter
It's a never ending winter

Standing in the dark
I've been running for miles
Just another day
Waiting for the sun to shine in vain
Welcome to my world, yeah
This is my broken world

The silent whispers of the frozen air
It's dragging me deeper into despair
Someone set me free
Get me out of this tragedy

All the time, all around
There's not a light and not a sound
I close my eyes, I'm crying out
A never ending, it's a never ending winter

This motherfucking frozen landscape I struggle to ignore
This weight on my chest that won't ever let go
Welcome to my world, yeah
This is my broken world

The silent whispers of the frozen air
It's dragging me deeper into despair
Someone set me free
Get me out of this tragedy

All the time, all around
There's not a light and not a sound
I close my eyes, I'm crying out
For all the pain I feel inside
In a world where seasons lost their way
My life unfolds in shades of gray
All the time, all around
A never ending, it's a never ending winter
(Never ending winter)

All the time, all around
There's not a light and not a sound
I close my eyes, I'm crying out
For all the pain I feel inside

Never ending winter
Never ending winter
Never ending winter
Never ending winter
(Never ending winter)

All the time, all around
There's not a light and not a sound
I close my eyes, I'm crying out
For all the pain I feel inside
In a world where seasons lost their way
My life unfolds in shades of gray

All the time, all around
A never ending, it's a never ending winter
(Never ending winter)
