

Never Too Late

Onlap

Late at night, you never sleep
Your biggest fears are knocking at your door
So hard
The same worries pile up in your head
The more you think and the more you fade
Away

Sometimes you feel you're taking the wrong direction
I know you've got your own demons and regrets
I'll be your candle and now hear me when I say

It's never too late
To throw it all away and start again
It's never too late
To get another chance to kill this pain
It's never too late

You keep smiling so they don't know
You're so tired that every high gets low
Somehow
People around make you feel worse
They're like a mirror of what you can't take
Anymore

Sometimes you feel you take the wrong direction
I know you've got your own demons and regrets
I'll be your candle and now hear me when I say
(Never too late no)

It's never too late
To throw it all away and start again
It's never too late
To get another chance to kill this pain
You can succeed in everything
Be who you want to be
You can make all the failures you can't change disappear
It's never too late
It's never too late
It's never too late

Don't wait 'til you come undone
(Today could be the start of a new frame)
Your story has just begun
(Your time has come, take it all)
It's your only option after all

(It's never too late)
(It's never too late)

Sometimes you feel you're taking the wrong direction
I know you've got your own demons and regrets
I'll be your candle and now hear me when I say

It's never too late
It's never, never too late no
It's never (Never) too late (Too late)
It's never, never too late no

It's never too late
To throw it all away and start again
It's never too late
To get another chance to kill this pain
You can succeed in everything
Be who you want to be
You can make all the failures
You can't change disappear
It's never too late
It's never too late
It's never too late
