

Ready for War

Onlap

I've been waiting for a sign
I've overcome my darkest nights
I am ready
I am ready
As my enemy hits the ground
I will be standing one more time
I am ready
I am ready
Ready for war

I've been hiding in silence
I was a million miles away
Building walls of resilience
Inside of me
The good days are gone
I've gotta face the unknown
It was just a calm before the storm

I've been waiting for a sign
I've overcome my darkest nights
I am ready
I am ready
As my enemy hits the ground
I will be standing one more time
I am ready
I am ready
Ready for war

I can feel all the violence
As I jump into the fray
Guided by my unconscious
Into dismay
All this time that I spent on my own
I prepared for the day that would come
It was just a calm before the storm

I've been waiting for a sign
I've overcome my darkest nights
I am ready
I am ready
As my enemy hits the ground
I will be standing one more time
I am ready
I am ready
Ready for war

Whoa oh oh
Whoa oh oh
I am ready
Ready for war
Whoa oh oh
Whoa oh oh
I am ready
Ready for war

I've been waiting for a sign
I've overcome my darkest nights

I am ready
I am ready
As my enemy hits the ground
I will be standing one more time
I am ready
I am ready
Ready for war

Whoa oh oh
Whoa oh oh
I am ready
Ready for war
Whoa oh oh
Whoa oh oh
I am ready
Ready for war
