

Running

Onlap

(Save me from everything)
(Tell me where to find my way)
(I'm just looking for something)
(I can't make it another day)

I think that I'm alright
I think I'm not so tired
I just feel the pressure of
All the things that I have in mind

I wanted peace, I wanted to be fine
I wonder why I cannot just sit for a while
I really wanna see what it looks like
To have a moment I know that would be mine

When the windows are all closed
Like a picture of the time
When the future is a hole
You're looking for

Save me from everything
Tell me where to find my way
I'm just looking for something
I can't make it another day
'Cause I'm falling down
Fading away
'Cause I'm falling down
This is what I know I just keep on running

Always working fast and hard
Never thinking about now
Believing I'm happy thanks to
All the things that I have to try

I wanted peace, I wanted to be fine
I wonder why I cannot just sit for a while
I really wanna see what it looks like
To have a moment I know that would be mine
Would be mine

Save me from everything
Tell me where to find my way
I'm just looking for something
I can't make it another day
'Cause I'm falling down
Fading away
'Cause I'm falling down
This is what I know I just keep on running

If I survive
If I am strong
Why do I feel like I'm never close
But I'll survive
And I'll be strong

Save me from everything
Tell me where to find my way

I'm just looking for something
I can't make it another day
'Cause I'm falling down
Fading away
'Cause I'm falling down
This is what I know I just keep on running
I keep on running, woah

'Cause I'm falling down
Fading away
'Cause I'm falling down
This is what I know I just keep on running
