

Shadows

Onlap

I've been
Down this road before
I'll give my all and settle the score
I know
The battle's mine
I stand alone
I'm never gonna change my way

Don't give a fuck about whoever stands in my way
Don't give a fuck, I'll cut the deck my own way
I won't lie, I'll make a revolution
Back down, you're already broken

Oh ohhhh
We're never tired of running
Oh ohhhh
We're never tired of hiding
We like to feed on the fear in your eyes
Hey
Another round, another time
We were born for this
Oh ohhhh
We're never tired of killing
Oh ohhhh
We're never tired of lying
We're like a demon coming back to life
Hey
Not a trace
We're living in the shadows

I've been
Bleeding through every war
I'll track you all wherever you are
I'll stand
My ground no matter the cost
I'm never gonna change my way

Don't give a fuck about whoever stands in my way
Don't give a fuck, I'll cut the deck my own way
I won't lie, I'll make a revolution
Back down, you're already broken

Not a trace, not a sound
We were born for this

Oh ohhhh
We're never tired of running
Oh ohhhh
We're never tired of hiding
We like to feed on the fear in your eyes
Hey
Another round, another time
We were born for this
Oh ohhhh
We're never tired of killing
Oh ohhhh
We're never tired of lying

We're like a demon coming back to life
Hey
Not a trace
We're living in the shadows

In the dead of the night, oh

Not a trace
Not a sound
Not a trace
We're living in the shadows

Yeah yeah yeahhh

Another round, another time
We were born for this

Oh ohhhh
We're never tired of running
Oh ohhhh
We're never tired of hiding
We like to feed on the fear in your eyes
Hey
Another round, another time
We were born for this
Oh ohhhh
We're never tired of killing
Oh ohhhh
We're never tired of lying
We're like a demon coming back to life
Hey
Not a trace
We're living in the shadows

Yeahhhh
Living in the shadows
Not a trace
We're living in the shadows
