

Turn Around

Onlap

Don't turn around
I'm here and now
Don't you see that I am blind

Don't think about
Tomorrow night
Don't you see that's our last time

Will you remember everything
'Til the night is ending
We know it's leading to nothing
And I feel like it's fading

There was a time I had enough
And I came here for the summer
Didn't know what I would find at all
But I was about to break
Have you ever felt like this before?

I wasn't looking for anyone
I had nothing left to give
Convinced that I was really done
With love and everything
Have you ever felt like this before?

But you came with a smile that couldn't be true
And I knew that I was there for you
Don't you see that I am blind

We lived a kind of miracle
We locked the world outside the door
Day after day without a doubt
Now it's time to see the truth
Have you ever felt like this before?

But you came with a smile that couldn't be true
And I knew that I was there for you
Don't you see that I am blind

Just give us one more night
To feel what we're feeling
Just give us one more night
There's so much to say

'Cause we just can't go now
I will find a way
'Cause we just can't go away
Don't you see that I am blind
