I want you, gotta go into your mind
I want you right now, your heart
You're my angel, I felt your touch
Why is your love so sweet? why?

You silently came to me
Only I can hear this monologue
Like a Beatrice that I met in heaven
I will have you, never go back

I dream of being with you
On a yacht, earth to heaven
Feels like I've been bewitched
When I walk, it's like laid back

I just wanna wanna wanna get to know you, girl
I just wanna wanna wanna get to take you, girl

It's been along (time)
Wavy, you ring so loudly (why)
It's like a woofer in the left side of my heart (vibe)
It keeps going, encore (why why)
One love for life

I want you, gotta know deep in your heart
I can hear you wherever you are, wherever
You give me faith and hope
But why is love a fantasy? why?

You silently came to me
Only I can hear this monologue
Like a Beatrice that I met in heaven
I will have you, never go back

You make me fall into this illusion
But you stay back far away
Take this shadow away, angel

I just wanna wanna wanna get to know you, girl
I just wanna wanna wanna get to take you, girl

It's been along (time)
Wavy, you ring so loudly (why)
It's like a woofer in the left side of my heart (vibe)
It keeps going, encore (why why)
One love for life

I'm floating, out of control
Swallow me like a miracle
Our love history is legendary
It'll be told far and wide, even to the moon

The silent waters spread
The rough sounds of my breath grow
My heartbeat increases
Like a virus so sick and tired
Your name is angel

It's been along (time)
Wavy, you ring so loudly (why)
It's like a woofer in the left side of my heart (vibe)
