

All Seeing Eye

Onslaught

Mind control ministry
Scanning every thought through your TV screen
Watching you, watching me
Watching every move as the hate clock grinds

No escape from the satellite
Camera to the left and a camera to the right
Sanitize humanity
Filtering words when the cell phone rings

Invisible cancer
In a war of supremacy
Perpetual laughter
At the heart of society

A multi-nation DPI
Awaken sleepers in the sky
A plague of drones shooting high
Beware the all-seeing eye

Protocol conspiracy
Tapping into veins of communication
Bleeding you, bleeding me
Tightening the screws in a classified window

Liquidate civil liberty
Tracing every twist and tracking every turn
Terminal duplicity
Channeling the streams with immunity

Invisible cancer
In a war of supremacy
Perpetual laughter
At the heart of society

A multi-nation DPI
Awaken sleepers in the sky
A plague of drones shooting high
Beware the all-seeing eye

State surveillance, state control
State surveillance, state control
State surveillance, state control
State surveillance, mind control

Thought crime, paranoia
Wired in, taking hold
Steely eyes scrutinize
State is seeking to control

Listening, censoring
Invasion of all privacy
Breaking down the firewall
Surveillance of democracy

Dark net, inner sanctum
Light the fuse, let it burn

Terminate, neutralize
Antivirus, spreading germs

Threatening, questioning
Freedom in obscurity
Covert in a blackened hole
Encrypted for security

Invisible cancer
In a war of supremacy
Perpetual laughter
At the heart of society

A multi-nation DPI
Awaken sleepers in the sky
A plague of drones shooting high
Beware the all-seeing eye

A multi-nation DPI
Awaken sleepers in the sky

Beware the all-seeing eye
