

# Bow Down To The Clownes

Onslaught

Roll up to the land of the free  
With orders to obey  
Step into a world of clowns  
Elite in every way  
White face, fake painted smile  
Born into pretend  
Pacifying all around  
In darkness, world descends

We only see what they want us to  
We only read what they want us to read  
We only hear what they want us to  
They wanna make us bleed

Slow down to the clowns  
When the circus comes to town  
Bow down to the clowns  
Watch the puppets dance and drown  
Who's wearing the crown?  
Pulling strings, we all fall down  
Bow down to the clowns  
The greatest fucking show in town

Stand up for the star attraction  
A carnival of freaks  
Walking through a ring of fire  
A masked pretender speaks  
Hands clap, sugar candy lies  
Fear becomes your friend  
Step up to the carousel  
The magic never ends

We only see what they want us to  
We only read what they want us to read  
We only hear what they want us to  
They wanna make us bleed

Slow down to the clowns  
When the circus comes to town  
Bow down to the clowns  
Watch the puppets dance and drown  
Who's wearing the crown?  
Pulling strings, we all fall down  
Bow down to the clowns  
The greatest fucking show in town

Obey, control, divide, defeat  
Obey, control, divide, defeat  
Obey, control, divide, defeat  
Obey, control, divide and delete

Ladies and gentlemen  
Step right up to the land of the free  
Bring your sons and your daughters  
Welcome to the new world order

We only see what they want us to

We only read what they want us to read  
We only hear what they want us to  
They wanna make us bleed

Slow down to the clowns  
When the circus comes to town  
Bow down to the clowns  
Watch the puppets dance and drown  
Who's wearing the crown?  
Pulling strings, we all fall down  
Bow down to the clowns  
The greatest fucking show in town
