

# Give Me Fire

Onslaught

Smoke and fire are burning bright  
We'll set the tinderbox alight  
In the ashes phoenix lives  
Life and death the red flame gives

Give me fire on which I feed  
Give me fire 'cause it's a need  
Real fine, I can tell  
Real fine, really burns in hell

Take a breath the heat surmounts  
Your mind wanders, you have your doubts  
Brain goes numb, in the heat  
Body glows, you cling to your seat

Give me fire on which I feed  
Give me fire 'cause it's a need  
Real fine, I can tell  
Real fine, really burns in hell

Give me fire (fire)  
Give me fire (fire)  
Give me fire (fire)  
Give me fire

It's on my head if I burn  
Sit next to me and take your turn  
Don't blame the flame by which I'm fuelled  
One day by fire we'll all be ruled

Give me fire on which I feed  
Give me fire 'cause it's a need  
Real fine, I can tell  
Real fine, really burns in hell

Give me fire (fire)  
Give me fire

Give me fire on which I feed  
Give me fire 'cause it's a need  
Real fine, I can tell  
Real fine, really burns in hell

Give me fire (fire)  
Give me fire (fire)  
Give me fire (fire)  
Give me fire
