

Strike Fast Strike Hard

Onslaught

Born to kill it's killing time
To break the bitter peace
Mobilised on red alert
The baddest blood runs deep
A game of chess at lightning speed
So brutal and precise
Crushing impact ne're a sound
Destructive paradise

Gonna fight for the colours till the day I die
Gonna fight for my brothers till the day I die
Gonna fight all the others till the day I die
Gonna fight muthafuckers till the day I die

Strike fast strike hard
We are hunters we are dogs of war
Strike fast strike hard
Hate defenders never surrender
Strike 'em fast strike 'em fucking hard

Battle scarred against the world
Into the lion's den
Classified insanity
The violence never ends
Adrenaline pumps through veins
Ferocious sport for all
Rapid fire chaos reigns
Another column falls

Gonna fight for the colours till the day I die
Gonna fight for my brothers till the day I die
Gonna fight all the others till the day I die
Gonna fight muthafuckers till the day I die

Strike fast strike hard
We are hunters we are dogs of war
Strike fast strike hard
Hate defenders never surrender
Strike 'em fast strike 'em fucking hard

Taking down the opposition
Taking down the rising threat
Taking down the flag of cowards
Living life with no regrets
Taking down the leaders
Taking down the pawns
Taking down displays of power
Riders on the perfect storm

Gonna fight for the colours till the day I die
Gonna fight for my brothers till the day I die
Gonna fight all the others till the day I die
Gonna fight muthafuckers till the day I die

Strike fast strike hard
We are hunters we are dogs of war
Strike fast strike hard

Hate defenders never surrender
Strike 'em fast strike 'em fucking hard
Strike fast strike hard
Hate defenders never surrender
