

# The Sound Of Violence

## Onslaught

Wake up world and welcome  
To a land of devastating brutality  
Where conflict is a part of every day life  
It's a fucking walk in hell

Silence brings death this is my war  
Long live the scream of machine gun fire  
Adrenalin charge feeling hardcore  
Target engaged, target expired

Deny  
Dictate  
Resolution fueled by hate  
Defy  
Dominate  
Hell on earth I orchestrate

This is the sound of violence  
The power and the pain  
This is the sound of violence  
In the realm of the insane

Batteries resound in a vicious wall  
Of constant and discordant harmony  
A symphony composed  
By the weapons of warfare crushing all

Killing sustains to a new dawn  
Rivers run red under thunderous skies  
Bullets rain down in a blood storm  
This is my day, never say die

Implode  
Exist  
March into a deep abyss  
Reload  
Resist  
Devastation devil's kiss

This is the sound of violence  
The power and the pain  
This is the sound of violence  
In the realm of the insane

Don't stop the noise inside my head  
Don't stop the noise inside my head  
Can't hear the voice inside my head  
Don't stop the noise until I'm dead

Deny  
Dictate  
Resolution fueled by hate  
Defy  
Dominate  
Hell on earth I orchestrate

This is the sound of violence

The power and the pain  
This is the sound of violence  
In the realm of the insane

This is the sound of violence  
Don't stop the noise inside my head  
This is the sound of violence  
Don't stop the noise until I'm dead  
This is the sound of violence
