Onslaught

At first those brothers tried to pass away this land
Now this is on the edge of town
And all run down

Making love in her flat
Doesn't say you got class
You don't feel but you know it's wrong
So are they americans

My guess is that you are under stress
Well really I know fucking best
Some of them play around
What's wrong with russian lads

Just throw the body on the scale
You play the game but it's real
Why don't you find out where she lives
Go dressed in your best you'll still be taxed
