

Which Hunt

Onslaught

The sound of horses riding by the riders fists raised to the sky
Burning torches the flames of death the suspects being put to the test

CHORUS:

In a different time religion's the same
The witch hunt is on as God's evil reigns

A pretty maid destined to die Lord's servants death in disguise
The evil spirit must be cleansed in the name of God they're claiming revenge

CHORUS:

In a different time religion's the same
The witch hunt is on as God's evil reigns

The morning skies they turn to night the maiden she's lost her fight
Chilling screams as she burns alive the christians ride home satisfied

CHORUS:

In a different time religion's the same
The witch hunt is on as God's evil reigns

Many years have now gone by the slayers, the christian pride
The bible remains to cleanse the land but Satan still has the upper hand
