

# When I Met U

ONUKA

(When I met you)

(When I met you)

I said it

(When I met you)

When I met you, I was ready

(When I met)

When I met you, I had known it

(When I met you)

When I met you, it wasn't wrong, yeah?

(When I met you)

When I had you, I read you

(When I met you)

When I had you, I was ready

(When I met)

When I had you, I had known it

(When I met you)

When I had you, it wasn't wrong wrong wrong, yeah?

Focus on me, I'm your ever best friend

You'll never find the same, I swear

I'm your destiny, I found out

When we used to go out

Focus on me, I'm your ever best friend

You'll never have the same, I swear

I'm your destiny, I found out

When I met you

(When I met you)

When I hit you, I'd catch you

(When I met you)

When I hit you, you'd get it, yeah you'd get it

(When I met)

When I hit you, you would know it

(When I met you)

When I hit you, you won't you won't ignore it

Focus on me, I'm your ever best friend

You'll never find the same, I swear

I'm your destiny, I found out

When we used to go out

Focus on me, I'm your ever best friend

You'll never have the same, I swear

I'm your destiny, I found out

When I met you

(When I met you)
