

Enemies

Onward To Olympus

All hell breaks loose
For one reason only
To try to destroy me and my ways of trying to save

Battered and Burised I stand
Done by the work of your hands
But if you open up your eyes to see
That you will never defeat me
I will stand my ground defeat any boundries so try and give eve
rything you have

So choke on your words
Cause nothing you say
Can destroy my God
(Nothing you say)

Battered and Burised I stand
Done by the work of your hands
But if you open up your eyes to see
That you will never defeat me

I will stand my ground defeat any boundries so try and give eve
rything you have (2x)

But if you open up your eyes to see
(Open you eyes)
That you will never defeat me

I watched you try to take us down
I watched you try to take us down
But you can't bring us down
(You can't bring us down)
But you can't bring us down
(You can't bring us down)
