Extensive destruction to the water supply
They don't have running water in their homes
There's no way to get it to them
[?] rumour there's a huge explosion
Mass murder, burned to death in their farm
The atomic bomb, thousands of people
Oh what I'm seeing is a lot of very very frightened people

Last days [?]
Hun'ed mad soldiers
2012, say the world gon' be over
Wake up like Folgers with the world on my shoulders
2012, say the world gon' be over
Last days [?]
Hun'ed mad soldiers
2012, say the world gon' be over
Wake up like Folgers with the world on my shoulders
2012, say the world gon' be over

Havin' a vision, last days but nobody listen
Originally livin' on dead and broke, and headed for prison
I see the division, they just want you up in the system
Swearin' the Bible as if the course of judgement was Christian
Eye in the sky
GPS is see what they doin'
Changin' the money [?] off American union
We headed the movement and vote with hund'ed manner recruitin'
We comin' and shootin', burn it to the ground and we lootin'
To hell with the bitchin', we in the house to make the decisions
It's still politicians that give us hopes for higher ambitions
United the snakes, we riotin' in 51 states, there's no mistake
We're harped, they're makin' man-made crates
To target new blood, the revelation's horrible cause
They inventin' new sicknesses to market new drugs
And there's things you gotta do when you not the popular vote
Blow up your own building, blame terror, take control

Last days [?]
Hun'ed mad soldiers
2012, say the world gon' be over

Ayo I'm blowin' on the whole zone, holes in the ozone
Government tappin' on my cell and my home phone
Walkin' over shell cases, Illuminati pale faces
Seein' symbols outta Free Masons
Radiation red light district, Nah
Against authorities, now the minorities is majorities
Rules of engagement, cracks in the pavement
The benz is my slave ship
Shackled by the monthly payments

I'm on arraignments, fightin' indictments
Citin' riots equal to lie-ins for those not in compliance
We the tryants, this is resistance
We voted for change, in the hood, not a damn difference
Life after hip hop is live nation
Fuck inauguration, hun'red mad lighten up your congregation
I'm into bomber nation, literally Obama nation
Keep sleepin' whilst the heat come outta hibernation

It's the last days of heaven, so great
Why you afraid to die?
You could pray and cry
To save your life, gotta say goodbye
Destroyed the planet, gotta pay the price
Hundred mad soldiers makin' sure were they safe at night
Doomsday, chaos will turn men into savages
Murders and massacres, chapters of Bible passages
Brimstone fiend, gotta bring no glee
Satan's lovin' the pain, the world covered in flame
Nothing remains but smoke and the ash like the towers
Or planes the government lost its power to reign
And the people still alive, see the evil in they eyes
Evil men oblige, we ain't equal in they eyes
Darkness rise like the ages before Edison
They told me my whole life, heaven would never let us in
I guess hell got a couple new residents
But Sticky say they might not sell my medicine, damn it's the
