Abort mission to all my niggas fought prison
Even Lil Wayne came through New York court system
Un yo this military mind state we got enough artillery to raise the c

Thats means more crimes ayo
Its wartime to all my niggas in the street committing war crimes
Uh stay vigilant uh stay militant
Full metal jacket nigga stay diligent
Salute to my street soldier
I'm the general five-star heat holder

And we don't take orders
So fuck the state orders
We coming outside
We coming outside
And we don't take orders
So fuck the state orders
We coming outside
We coming outside

Only job I ever had was an inside one
Got a 4 5th but the 22 my inside gun
You better forfeit or you two gon be inside one
Big mother fucking hole I give the word and it's done
I got 9 mill and I'll spend it all tonight
You trying to get killed wearing that moissanite
Cause if the shit real niguh it's gone cost a life
I'm the dark I make you walk toward the light
Knock knock "who is it?" Robin
"Robin who?" If you had enough money niguh we'd be robbing you
We mobbin through like we got a job to do
And it's only between Me God and you
Boy my bezel banging like a gang war in my jewels
Cause you know them blood diamonds baby icy blue
I see you I put you in the ICU
And the person that you save just might be you

And we don't take orders
So fuck the state orders
We coming outside
We coming outside
And we don't take orders
So fuck the state orders
We coming outside
We coming outside
