

# I Rap Like

Onyx

Yo, what up nigga?  
What up what up man?  
Heard about the tunnel tonight?  
Yeah you know, we 'bout to run up on that shit  
Oh word, I'm there  
Snatch your ankle  
Weird

Yo, yo, I roll up on the club with something to park quick  
When we come through, niggas always talk shit  
Ride through with the windows down  
Like Prrrrrrrrrrrr, your bitch she's a widow now  
There's no remorse, you dealing with the force  
4, 5, 6 yo you rolling with the force  
I'm a mastermind  
Fuck that I blast my line  
Nigga's garbage, we trash that's [?]  
Yo I keep it for protection  
You know I gotta let the text  
My styles uncanny like the X-Men, Nightcrawler  
Looking for the right baller  
In the club on the neck he got the ice water  
I made this for the streets, where the gangs at?  
When you hear the beat you fucking get your chains snatched  
Type of beat that make you wanna catcha body b  
Rest in Peace to Prodigy

I rap like no one out there can fuck with me  
I rap like no one out there can fuck with me  
I rap like no one out there can fuck with me

There's a revolution going on right now  
The hustle switched up  
You won't catch me outside unless I'm blinged up  
Get money, stick up, here for the pickup  
How do you think I got it nigga?  
It's a stickup (Lay back)  
Yeah, I ain't giving warning shots  
My gun named Karen  
That bitch come out calling the cops  
Calling the shots, fucking lying hole in my opps  
You dumb niggas, put a hole in the box  
Hoping the day I see that ends the war  
Stomp your face in the floor  
Niggas that's what the Timbs is for  
And when I come through  
I got the fucking leper tree  
You put [?] blast standing next to me  
Where my crew? Get you out your seats  
I might rob you but not steal from you  
I'm not no thief, nigga  
Sticky Fingaz baby, where we at  
Burners up  
The way I feel, fuck with me or you get murdered up

I rap like no one out there can fuck with me  
I rap like no one out there can fuck with me

I rap like no one out there can fuck with me
