

## Back Again

Ookay

I can't believe that it had to be this way  
And I didn't even get to say goodbye  
I wish that you could be here for just one more day  
I called you but this time there's no reply  
And I want nothing more than just to have you back again  
Back again  
Back again  
Back again  
And I want nothing more than just to have you back again  
Back again  
Back again  
Back again

I can't believe that it had to be this way  
And I didn't even get to say goodbye  
I wish that you could be here for just one more day  
I called you but this time there's no reply  
And I want nothing more than just to have you back again  
Back again  
Back again  
Back again  
And I want nothing more than just to have you back again  
Back again  
Back again  
Back again

I can't believe that it had to be this way  
And I didn't even get to say goodbye  
I wish that you could be here for just one more day  
I called you but this time there's no reply  
And I want nothing more than just to have you back again  
Back again  
Back again  
Back again  
And I want nothing more than just to have you back again  
Back again  
Back again  
Back again
