

By Myself

Ookay

I was born in love
You said I was enough
Couldn't get you off my mind

Now that we're apart
You left me in the dark
Blind

I wanted you to be someone
That I can rely on
Someone to depend on

When you walked away you're gone
Don't wanna do this by myself
I must admit I need your help

Don't wanna do this by myself
Don't wanna do this by myself
Don't wanna do this by myself

Don't wanna do this by myself

Don't wanna do this by myself

I was born in love
You said I was enough
Couldn't get you off my mind

Now that we're apart
You left me in the dark
Blind

I wanted you to be someone
That I can rely on
Someone to depend on

When you walked away you're gone
Don't wanna do this by myself
I must admit I need your help

Don't wanna do this by myself
Don't wanna do this by myself
Don't wanna do this by myself

Don't wanna do this by myself

I don't wanna do this by myself

Don't wanna do this by myself
