

Deep With Me

Ookay

I'm seeing all the warning signs
'Cause I never know what's on your mind
And sometimes it keeps me up at night
When I don't know just how you feelin'

You say you think about me all the time
And I know that I can make you mine
If you put your worries to the side and make this right, yeah
We can give this life some meaning

But tell me why, why, why you only want the best of me
Loving only what you want to see, yeah, see in me
Tell me why, why, why you will never want the rest of me
No, you never want to get too deep with, deep with me

I've been overthinkin' lately
Why'd you ever call me 'baby'
If you didn't feel like maybe we could dive into the deep
And just to see if we could sink or swim

But tell me why, why, why you only want the best of me
Loving only what you want to see, yeah, see in me
Tell me why, why, why you will never want the rest of me
No, you never want to get too deep with, deep with me
