

Echo

Ookay

I just wanna talk about nothing to someone
Anything is better than something to no one
I'm talking to my echo, echo, echo
I'm talking to my echo, echo, echo

The imitation of the dark ain't what it seems like
If anybody's out there, I'll wait on your reply
I'm talking to my echo, echo, echo
I'm talking to my echo, echo, echo

Only thing I ask is to hear other speeches
Cause everything I say tells me about my weakness
I'm talking to my echo, echo, echo
I'm talking to my echo, echo, echo

I'm not alone and silent
I hear the sounds bounce off the wall
I'm surrounded by these faces
Only feedback from the pavement
And I'm drowning from my own returns
I just wanna talk about nothing to someone
