

Fall Apart

Ookay

I don't know why I'm smiling
While I'm living in my own disaster
It doesn't seem too exciting
But nothing seems to excite me at all
Don't mean to be disappointing
I'm sure we'll laugh about this after
There's no more feelings worth hiding
How much more can we take till we fall apart
How much more can we take till we fall apart
How much more can we take till we fall apart

How much more can we take till we fall apart

How much more can we take till we fall apart

I don't know why I'm smiling
While I'm living in my own disaster
It doesn't seem too exciting
But nothing seems to excite me at all
Don't mean to be disappointing
I'm sure we'll laugh about this after
There's no more feelings worth hiding
How much more can we take till we fall apart
How much more can we take till we fall apart
How much more can we take till we fall apart

How much more can we take till we fall apart

How much more can we take till we fall apart
