

Long Time

Ookay

I've been waiting on this for a long time
Something I used up
Something I wasted
You've been sitting in there for a long time
With your mind made up
Since your lover's misplaced you

I've been waiting on this for a long time
Something I used up
Something I wasted
You've been sitting in there for a long time
With your mind made up
Since your lover's misplaced you

I've been waiting on this for a long time
Something I used up
Something I wasted
You've been sitting in there for a long time
With your mind made up
Since your lover's misplaced you
