

## Oxygen

Ookay

Slow down, breathe in  
Hold on and savor this  
My eyes closed wide open  
It's a moment you can't take away

I'm breathing it in like oxygen  
I don't know when I'll feel like this again  
And when it's all over I'll wish it never ended  
So no holding back

I'm breathing it in  
Like oxygen  
I'm breathing it in  
Like oxygen, oxygen

There's a beating in my heart that keeps me feeling  
And no one said the road we'd take was made of gold  
It only takes some common sense to keep believing  
So keep believing  
All you have to do is

Slow down, breathe in  
Hold on and savor this  
My eyes closed wide open  
It's a moment you can't take away

I'm breathing it in like oxygen  
I don't know when I'll feel like this again  
And when it's all over I'll wish it never ended  
So no holding back

I'm breathing it in  
I'm breathing it in  
Like oxygen, oxygen  
Like oxygen
